Community-Based Forest Management in WRM's Web Page

In addition to the monthly bulletin, another tool used by WRM to support and disseminate the issues on which it centres its activities is the http://www.wrm.org.uy web page. In the section on "information by subject" various categories are listed, among them, community-based forest management. Under this item, we include all the articles published in the WRM bulletin on the subject, in addition to other documents of interest and links to other pages related with this type of management. We invite all those who are working in the field of community-based forest management and who have an article, research work or experience they wish to disseminate, to send it to us so it can be included it in this section, with the corresponding credits, and thus the experience can be shared with many people.
