
[International Day of Struggle against Monoculture Tree Plantations 2013](#)

September 21, the International Day Against Monoculture Tree Plantations, is a day for our organizations, networks and movements to celebrate resistance and raise our voices to demand, Stop the Expansion of Monoculture Tree Plantations! which threaten the sovereignty of our peoples.

We invite you to join the annual campaign that continues to grow every year, reaching new places where different types of activities are carried out: press releases, distribution of flyers, conferences, seminars, public demonstrations, information campaigns on websites and social networks, etc.

We hope you will join us in spreading the message and working together to build a day of resistance and struggle that grows stronger every year!

We also invite you to send us your own contributions (images, videos, information on activities, etc.) to help enrich this section among all of us. You can use this e-mail: 21sept@wrm.org.uy
