Help us to publicize the WRM Bulletin

We have recently changed the way we send out our information, including our monthly electronic Bulletin. This means that e-mail subscribers need to re-register via our WRM web site, and because of this, many people who used to receive the WRM Bulletin no longer do so.

We have now launched a campaign for subscribers and we would like to enlist your help. We would be very grateful if you would help us circulate the short description of WRM and our Bulletin that appears below.

Thank you very much for your help!

The World Rainforest Movement (WRM), through its work on forests and issues related to tree plantations, contributes to achieving respect for local peoples' rights over their forests and territories. The WRM has an international secretariat based in Uruguay, from which it networks and collaborates with a number of organizations and movements in a large number of countries.

The WRM Bulletin has been published monthly since 1997, and is currently distributed in four languages: English, Spanish, French and Portuguese. The Bulletin is an information dissemination instrument serving local peoples' struggles to defend the forests from commercial logging, dams, mining, monoculture tree plantations, shrimp farms, agribusiness and other threats, including more recent trends such as REDD (Reducing Emissions from Deforestation and Forest Degradation) and economic valuation of so-called "environmental services"; these market mechanisms are transforming forests and territories into just another asset to be traded.

We have recently changed the way we send out our information, including our monthly electronic Bulletin. This means that **e-mail subscribers need to re-register** via our WRM web site, and because of this, many people who used to receive the WRM Bulletin no longer do so.

The Bulletin is available free of charge. To register on the Bulletin's mailing list, simply click on one of the links below and follow the instructions:
