
[Chile: support for the Mapuche-Pehuenche people needed](#)

Mapuche and Pehuenche organizations of Chile are planning a visit to Europe to contact and lobby financial and state agencies involved in the controversial hydroelectric projects that are affecting the Bio Bio watershed (see WRM Bulletin nr. 11). The visit has been programmed for 2 to 20 November and will cover Spain, The Netherlands, Germany, Norway and Sweden. Organizations interested in cooperating to make it possible, please contact the Action Group for the Bio Bio ("Grupo de Accion para el Bio Bio").
