“Mangrove Ecosystem Studies in Latin America and Africa” is a publication edited by B. Kjerfve, L/D. de Lacerda and El Hadji Salif Diop and published this year by UNESCO, ISME (International Society for Mangroves Ecosystems) and the Forest Service of the USDA. It includes several scientific case studies -most of them in English- in these two regions. Individuals and organizations involved in the issue can request a free copy to:

- For North, Central and South America:

Forest Service - USDA

International Institute for Tropical Forestry

PO Box 25000, Rio Piedras PR 00928-6302, USA

- For Africa:

UNESCO Office Dakar

12 av. Roume, BP 3311
