**Mr. Ousmane Coulibaly**  
**Regional Prefect,**  
**Prefect of the Department of San Pedro.**

Dear Prefect Coulibaly,

We are writing to you to express our concern about the detention of Mr. Vincent Djiropo. Mr. Djiropo is a highly respected community leader committed against the privatization of the Monogaga forest and in defense of the ancestral lands of his people. We hear that he has been detained since Saturday, December 14 by the police in San Pedro.

We have been informed that Mr. Djiropo's detention is due to the fact that he opposed the privatization of the Monogaga forest where the Roots Wild Foundation was granted a concession by the Ministry of Water and Forests. This forest is vital to the local communities who have lived and depended on it for more than six centuries. These communities are resisting land grabbing, which threatens their livelihoods, their culture and the forest of their ancestors.

Reports indicate that Mr. Djiropo had previously received numerous threats and intimidation because of his commitment to his people. His detention highlights serious concerns about the criminalization of land defenders in the region.

We call on you and all Ivorian authorities to immediately release Mr. Vincent Djiropo and to guarantee the security and rights of all individuals who defend their ancestral lands. His detention represents a serious violation of human rights and the right to freedom of expression.

We remain working in solidarity with communities and organizations across the region who are defending their lands, and we will continue to monitor the situation of Mr. Vincent Djiropo closely. We call on the authorities to take immediate measures to repair this injustice and to release Mr. Vincent Djiropo.

Looking forward for your response,

Respectfully,
